

Guernsey International Business Association (GIBA) joins the IoD in population policy letter response

GIBA endorses the Institute of Director's statement on the Population and Immigration Policy Review. In addition, we emphasise that industry has responded in a positive and agile way to the ongoing skills shortage, however it is increasingly clear that population growth is necessary for economic growth. We also believe that the island must demonstrate that it is an environment where business can flourish and continue to build its reputation for first-class professional services
