

# GIIA'S 'INSURING THE FUTURE' STUDENT CONFERENCE EVENT

**17 January 2024**

Last October, local students were invited to GIIA's first 'Insuring the Future' student conference event.

GIIA's aim was to give the next generation a taste of what life in international insurance is like, through an immersive and interactive experience.

When a global crisis hits, whether it's a flood, fire, hurricane, tornado or something else, insurance providers must step into action to minimise the monetary fallout. Students gained valuable insight into risk management, global governance and the resilience needed to overcome these challenges.

Watch the video from the event here:
